3. ACCESSIBILITY STATEMENT

Last updated: November 2026

WUM Advisory Services (SMC-Private) Limited (SECP CUI # 0314319) is committed to ensuring digital accessibility for people with disabilities. We continually improve the user experience for everyone and apply relevant accessibility standards to our website and web portal.

3.1 Conformance Status

We aim to conform to the **Web Content Accessibility Guidelines (WCAG) 2.1, Level AA**, published by the World Wide Web Consortium (W3C). These guidelines explain how to make web content more accessible for people with a wide range of disabilities. We recognize that full conformance is an ongoing process, and some areas of the site may not yet fully meet these standards.

3.2 Measures We Take

- Semantic HTML structure and logical heading hierarchy to support screen readers.
- Sufficient color contrast ratios for text and interactive elements.
- Keyboard-navigable interfaces, with visible focus indicators where technically feasible.
- Alternative text for meaningful images and accessible labels for form controls.
- Responsive layout supporting browser zoom and text resizing without loss of content.
- Consistent navigation and predictable interaction patterns across pages.

3.3 Known Limitations

We are actively working to identify and remediate accessibility barriers. Where third-party components or embedded content are used, their accessibility is governed by the respective providers, and we make reasonable efforts to select accessible solutions.

3.4 Compatibility

Our website is designed to be compatible with current versions of major browsers (Chrome, Firefox, Safari, Edge) and with common assistive technologies, including screen readers and keyboard-only navigation. Optimal experience may vary depending on the combination of browser and assistive technology used.

3.5 Feedback and Contact

We welcome feedback on the accessibility of our website. If you encounter an accessibility barrier, or require content in an alternative format, please contact us. We aim to respond to accessibility feedback within a reasonable timeframe and will make reasonable efforts to provide the information or service you need through an alternative means.

3.6 Enforcement and Ongoing Improvement

Accessibility is reviewed periodically as part of our website maintenance. This statement will be updated as our conformance status and remediation efforts progress.
